From the desk of Cary Marshall...

YOU WANT BIG? WE KNOW BIG!

In this last 2011 Newsletter I want to focus on MG's monster-sized plate rolling machines. For years MG has owned the European market and have had a very prominent presence in both Asia and the Middle East.

I think it is about time to open the eyes of the US market for the outstanding quality, durability, after-sales service and last but not least the competitive price that MG offers.

[I want you to be amazed and intrigued by the size of these machines. Just imagine this: the last one sold to Spain - MG32502Z- weighed 800,000 lbs and took 17 semi-trucks to transport. The weight of the top roll alone was 116,600 lbs!](#)

We have currently special prices on three heavy-duty MG machines. If you are on the market looking for a big plate roll, I suggest you take a very serious look at MG.

**YOU WANT BIG?
WE KNOW BIG!**
Wind Towers, Pressure Vessels, Petrochemical.

Make C Marshall Fabrication Machinery your place to go when you are looking for serious rolling equipment.
Nobody beats MG quality.

Please contact me at cary@cmarshallfab.com or (805) 416-6982 (cell) for additional information.

YOU WANT BIG! WE KNOW BIG!

 Wind Towers, Pressure Vessels, Petrochemical — Nobody beats MG quality! 

C MARSHALL FABRICATION MACHINERY, INC.

Make CMF your place to go when you look into serious rolling.

MG32520Z — 10' x 10" MG4160W — 13' x 6" MG 32520Z — 10' x 10" MG3220W — 10' x 8.5/8"

CONTACT US FOR PRICING ON THE FOLLOWING XXXL MACHINES

MG3130 - 10' x 5-1/8"
delivery 5-6 months

MG3200W - 10' x 7.95"
delivery 3-4 months

MG35110V - 11.5' x 4-5/16" delivery 5-6 months

SPECIAL POST-FABTECH PRICE ON MH314C 4-ROLL FOR IMMEDIATE DELIVERY

This is the ultimate evolution in the plate bending field with two dragging rolls with hydraulic pinching allowing a steady and precise material dragging. This plate bending machine is the easiest, most versatile, quickest and precise the market can offer.

It comes with a Touch Command Control.

Technical data

Installed power	10 HP
Top roll diameter	11.4"
Lower roll diameter	10.3"
Side rolls diameter	8.3"

Capacity

Working length	122"
Max. rolling thickness	9/16"
Max. pre-bend thickness	1/2"

The max performances are referred to shells of diameter equal or larger than 3 times the top roll diameter and with material with a yield point 38,000 PSI.

[CREATE YOUR OWN TAX BREAK IN 2011!](#)

If you have any plans for equipment purchases now, before year-end is the time to buy. Section 179 is a tax code that allows you to take a 100% deduction on equipment or software purchases up to \$500,000 this year. Combined with the normal benefits of leasing and financing; Section 179 allows you to write-off your entire equipment purchase for 2011 while making one small payment.

If you have any questions, find something interesting in this email or simply want to discuss your future fabrication machinery needs, give me a call at 805-527-1340 or click [HERE](#) for my email.

I wish my customers, vendors, dealers and all the people active in the metal fabrication world Very Happy Holidays and a Prosperous New Year.

Sincerely,

Cary Marshall
