Back from the World of Concrete Show (WOC) in Las Vegas, NV 1/24-1/27 2012

January ended with a visit to Las Vegas where CMF attended the annual World of Concrete Trade Show. This was a first timer for CMF and most probably something we will be doing every year.

We were excited to introduce our new line of BNC rebar benders and cutters at the show. Since January 1, 2012 C Marshall Fabrication is the sole distributor of these well-made, extremely tough and durable rebar equipment.

We have currently show specials on three models - two cutters and one bender - all of them in stock and ready for delivery. The special pricing will run until February 28, 2012.

1 TYC-NHD25 portable cutter

1 TYC-HD42A heavy-duty cutter

1 TYB-HD42A heavy duty bender

See below for more detailed info.

Please contact me at cary@cmarshallfab.com or (805) 416-6982 (cell) for additional information. All prices good through February 2012. Can't be combined with any other special offerings/promotions. Offers subject to availability.

ATTENTION!

Also coming in next month a brand new MH314C 4-roll, made in Italy by MG. We showed a similar machine at Fabtech 2011 in Chicago; now all of you who were too late for that one; you have a second chance.

Click the picture below for additional information on the machine.
