

MG's Newsletter August 2009

Two Giagantic Orders for MG, a 210mm and a 260mm cold rolling Plate rolls!

After selling the biggest Hidraulic plate bending machine to SICES spa here in Italy in 2007 a 3100mm x 210mm cold rolling capacity and delivered to Castagna Antonio our second biggest machine a 3100mm x 200mm MG this month took two massive orders!

Another MG3220V (3100mm x 210mm) to **CIB srl** a big italian company which was formed in 1968 in Castegnato, province of Brescia,

Italy. CIB srl manufactures pressure vessels for petrochemical, textile, pharmaceutical industries and steam drums etc..

Then a Huge MG35520Z (3500mm x 260mm capacity) the top roll will be 1350mm diameter with a pressing force of 5000 Tons! The company, another storical well known Italian leader **C.I.T.I. srl**, in Dalmite Bergamo a company wich has been operating for over 30 years in the offshore sector and other areas such as petrolchemical sector / chemical sector / mechanical sector / textile sector / ship-building sector / ceramic sector / paper mills.

These Monsters together with MG previous big machines place us as the European market leader not just in number of machines sold, but also for the heavy duty plate rolls.
